PRODUCT MATURITY ANNOUNCEMENT

Dear CTI Customer,

CTI is announcing the maturity of the 2515 100-Watt AC Power Supply.

This product is a 1990's design and contains many parts which have been discontinued. The functions and features of this product have been directly replaced by the new 2515-A 100-Watt AC Power Supply with Redundancy Support. In addition to supporting Redundancy Operation in 2500-R11-A bases, the 2515-A includes:

- New flyback design with fewer components for better long-term reliability
- Higher efficiency for reduced energy consumption and cooler operating temperature

Maturity of the 2515 is effective immediately and new 2515-A units will be available from stock beginning July 15, 2013.

If you have questions about this maturity announcement, please contact CTI or your CTI Preferred Automation Partner.

Regards,

Robert Peck
Senior Vice President
Control Technology Inc.
