PRODUCT MATURITY ANNOUNCEMENT

Dear CTI Customer,

CTI announces the maturity of the 2557 16-Channel Isolated RTD Input Module, and its replacement by 2557-A.

The 2557 is a late 1990's design and contains many parts which have been discontinued. The functions of this product have been replicated on our new 2557-A module, which is a direct replacement. In addition, the new 2557-A now employs a removeable wiring connector making field replacement of modules much easier.

If you have questions about this maturity announcement, please contact CTI or your CTI Preferred Automation Partner.

Regards,

Robert Peck
Senior Vice President
Control Technology Inc.
